58 TONNE	42.75 FT	3325

* Tonnage is based at 40 lbs/cu.ft.

Each feed factory is 10'3" square and is separated into four equally sized compartments. Each compartment comes complete with a cyclone, fill pipe, vented manhole, hopper outlet and a 4" hopper slide valve. The four compartment hopper bottom has a 57 degree slope and 6' of clearance below the hopper outlets. This directs ingredients into your mill and reduces bridging. The feed factory is completed with a bottom man door, lifting lugs and outside ladder. The exterior and inside skirted area is prepared with a powder coat finish, available in several different colours. The building is fully braced and trussed to support thousands of pounds of ingredients.

With this complete package you will have efficient feed storage plus a preparation center right on your farm. You will gain the convenience of the unit while earning the extra savings of buying protein in bulk.

Delivery available - A crane must be on hand at the time of arrival for unloading.
