

SeedStore

Portable SeedStore

The Smith Steel Portable SeedStore bulk storage tank is specifically designed to handle the needs of the bulk seed business. It is available in the following 2 sizes:

- ✓ 1350 cubic feet
(approximately 1350 seed units)
- ✓ 2400 cubic feet
(approximately 2400 seed units)

Features of our SeedStore models include:

1. Two separate hoppers and internal divider provide storage for 2 varieties of seed
2. Further division possible to provide storage for up to 4 quarters
3. Models are less than 15 feet tall to allow for filling with a shorter conveyor
4. Welded tanks provide weatherproof outdoor storage
5. Extendable legs provide 24 in. - 42 in. of ground clearance
6. Rack and pinion slide gates for ease of opening
7. Superior quality bean ladder to protect your seed
8. Ground operated lids for safe operation
9. Removable access ladder for safe seed inspection
10. Minimal site preparation
11. Tongue and tires provide easy transportation to location
12. Quality powder coated exterior available in several different colours.
